Dear Hiring Manager,

I am writing to express my interest in the Software Engineer I position, as advertised on Handshake.

With a solid foundation in coding languages such as Java, Python and SQL, I am confident in fulfilling this position. Through relevant courses like Data Structures, Software Development Processes, and Principles of Machine Learning, I am already familiar with object-oriented programming, working in an agile environment, and handling big data. Additionally, I have a wealth of experience developing apps and websites, and through dozens of projects and assignments, I have honed my skills in performing rigorous testing and extensive debugging. Currently, I am expanding my expertise to include cloud platforms. Most importantly, I am particularly drawn to your company's focus on creating tools from scratch and would love to be a part of this experience.

Thank you for considering my application. I am eager to contribute to the success of Wayfair and look forward for the opportunity for further discussions.

Sincerely,

Justin Lai
